

## MultiCam register marks for Commercial and Newspaper printers

MultiCam provides both circumferential and lateral color register control in a compact, low profile system. It identifies register marks as small as 0.014 in. (0,36 mm) as well as Ribbon Control, Autotron™, and other manufacturers' marks at speeds up to 3,500 ft/min (17,8 M/sec).

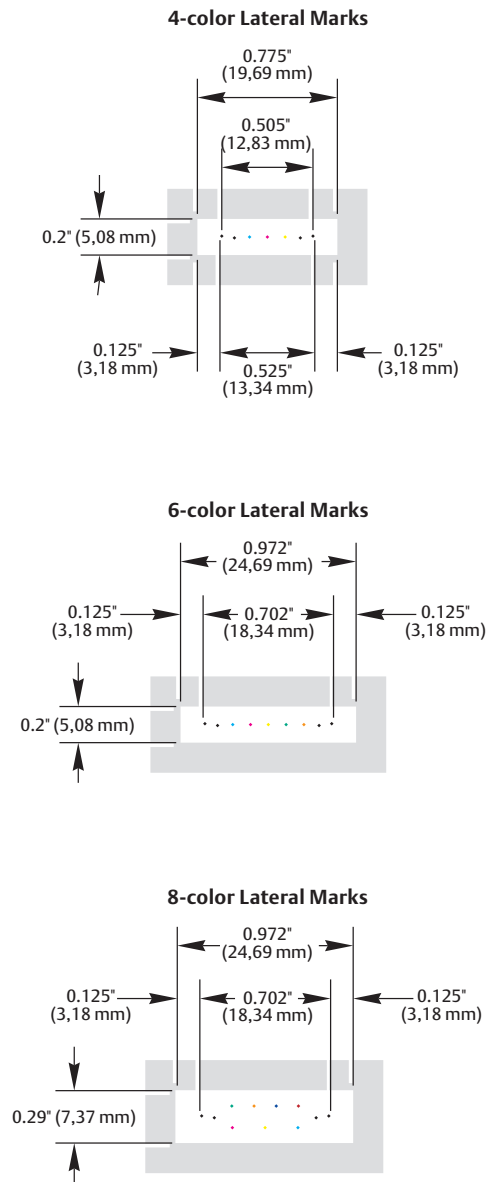

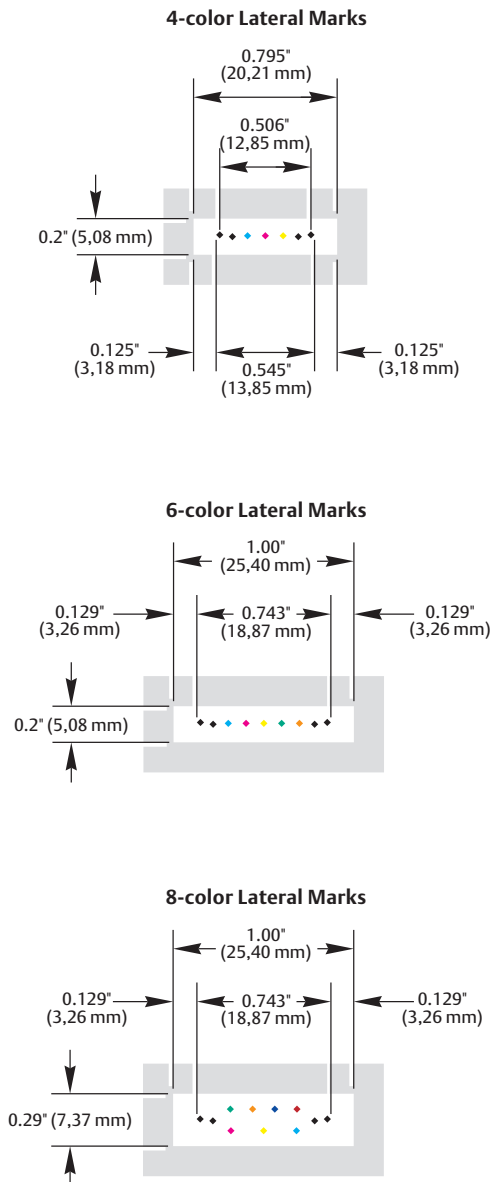

# Lateral mark patterns

MultiCam offers multiple *lateral* mark patterns to meet a range of printing needs. The camera can read four, six, or eight colors *across*.

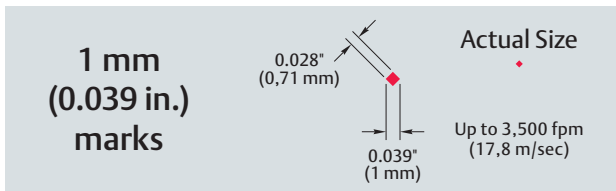

## White Space Requirements

## White Space Requirements

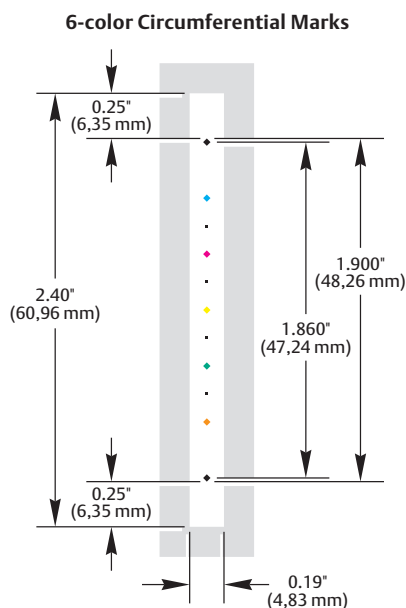

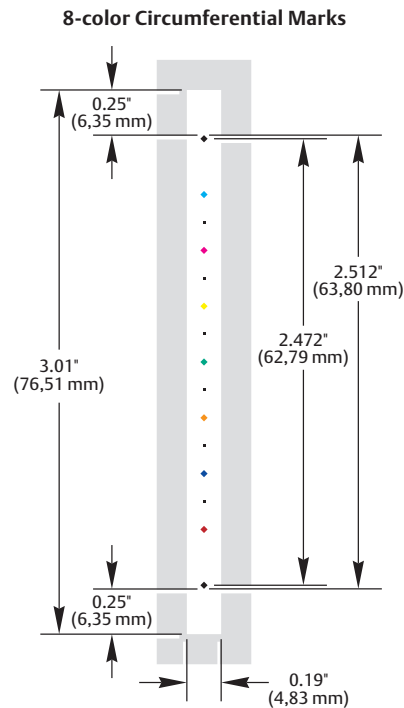

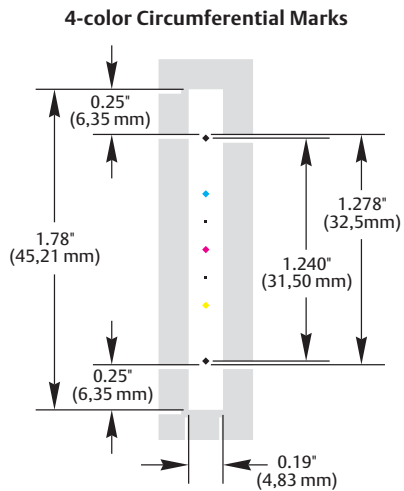

# Circumferential mark patterns

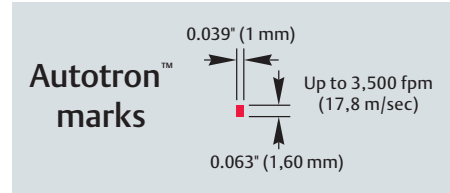

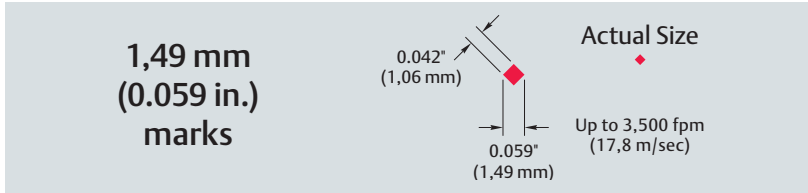

MultiCam offers multiple *circumferential* mark patterns to meet a range of printing needs. The camera can read four, six, or eight colors *ahead*.

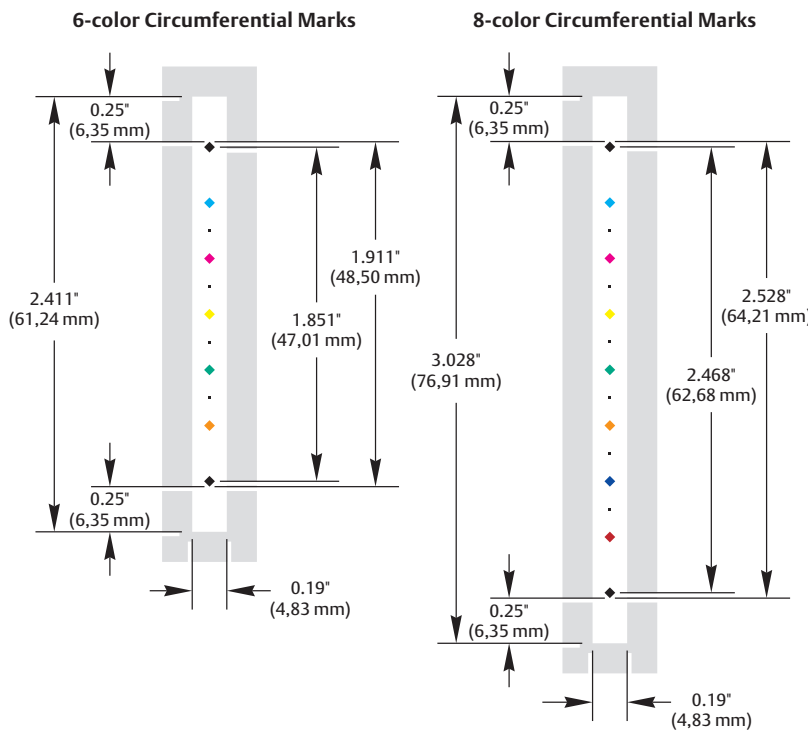

## White Space Requirements

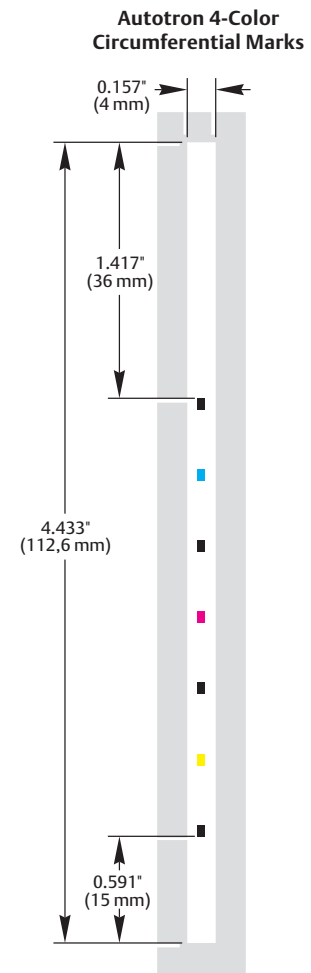

# Circumferential mark patterns (continued)

## White Space Requirements

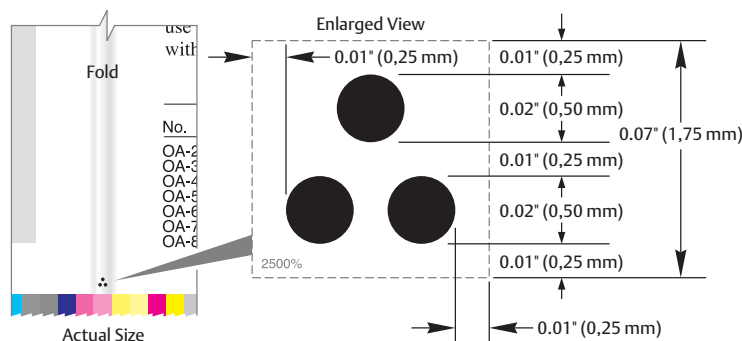

## White Space Requirements

Also available Autotron 5 & 6 color patterns

## Ribbon Control marks

Publication nr. 2018T1\_ENGLISH
