**BG ETEM approval for washing and cleaning agents
in compliance with the Industry Initiative for the Reduction
of Solvent Emissions in Offset Printing**

Dear Mr. Maier,

We hereby confirm that your product

Baldwin 1798

fulfils the requirements of the Industry Initiative for the Reduction of Solvent Emissions in Offset Printing (see also www.bgetem.de; Webcode 15779576).

You are also hereby authorized to use the label of BG ETEM on this product with immediate effect.

Please Note:

This approval applies exclusively to the formula submitted on **28.10.16**. Should new findings in the fields of safety or toxicology, or changes to legal requirements lead to a different assessment of the products, we reserve the right to withdraw this approval.

With kind regards
Fachgebiet Druck und Papierverarbeitung
Referat Arbeitsprozesse

Nadine Metz
